SUFFIELD RESIDENTS

Cypress County is pleased to announce it has entered a 5-year agreement with GFL Environmental Inc. to provide weekly residential household waste collection and bi-weekly recycling collection services in Suffield.

Collection will be on Wednesdays, commencing April 19, 2023, and bins must be set curbside by 7 a.m. Only items in the GFL bins will be collected and all waste must be bagged. Please do not overfill the bins as the lid must be able to close in order to be collected by GFL's automated service.

Only GFL Environmental Inc. bins will be collected, so if you have other waste collection bins, please do not set them out for household waste collection.

Your residence will be provided with one waste collection bin (black) and one recycling collection (blue) bin. Homeowners have care and custody of these bins. Damage to bins will be charged to the resident's Cypress County utility account. Each bin is marked with an identification number and is registered to your utility account/address. Should you move, the bins stay with the residence.

For more information regarding GFL Environmental Inc., please visit their website at www.gflenv.com or call (403) 265-0044.

Please visit our website, <u>www.cypress.ab.ca</u>, for information regarding transfer site locations, hours, and materials accepted for items not suitable for the GFL bins.

In the event your waste was set out on time, but was missed by GFL on collection day, please contact <u>dispatchcalgary@gflenv.com</u>.

Please find a list of items GFL Environmental Inc. accepts for waste and recycling collection on the following page.
