

Cypress County MEDIA RELEASE

April 15, 2020

Effective immediately, the Emergency Management Committee has determined it is in the best interest of all ratepayers and residents to delay the opening of the Cavan Lake Recreational Campground and Sandy Point Park for all camping and day use. The newly constructed boat launch at Sandy Point will remain open for use, so long as physical distancing measures are practiced as set out by provincial authorities.

In addition, **ALL** outdoor play structures in both Cypress County parks and school playgrounds are now closed until further notice. Residents are still welcome to use public parks and trails as long as physical distancing is practiced.

We will continue to monitor the situation closely and are committed to opening the park as soon as it is safe to do so. Enjoying a Cypress County summer is important, but we must remain vigilant in our collective fight to flatten the curve!
